2023 Budget

Andy Hoover presented the most recent information on the proposed 2023 budget.

- Discussion around the anticipated reimbursement of Covid funds. We have applied, but we are unable to assume we can include in budget until we receive payment.
- Need to continue to clarify process and track Outreach budget and disbursement of funds to grants and other recipients. Grants will not be advertised until mid-2023, with payments not anticipated until end of 3rd quarter.
- Andy affirmed that we can see a more detailed monthly breakdown in the future to monitor larger discrepancies between income and expenses.
- Big thanks to Finance Committee for their hard work on 2023 budget.

In anticipation of more detailed budget numbers in January, the Vestry tabled the budget vote until the January 25 meeting.
